Dear Shareholders and other interested parties,

Good news!! Ciralight Global stock is now trading. The first sales occurred last Wednesday, November 16. The stock initially was purchased at .60, and then climbed later the same day with another purchase at .65. The next day the asking price was .70, a nice increase.

The market is becoming aware of your Company. As we continue to release news of our rapid expansion around the world and the signing of new contracts for our new 8'x4' Skylights, the Suntracker 800, and sales of our 4'x4' Skylights, the Suntracker 400, expand, we expect demand for our products and the value of our company and stock to rise.

Shareholders are now free to sell their stock through any broker now that the exclusive arrangement with our first market maker, Wilson Davis, is over. In our previous shareholder communications, we have kept you up to date on all the positive developments at Ciralight Global, including the fact that we have passed the 100-dealer mark and are now represented in nearly every area in the world. As a reminder, we have completed some notable installations recently. They include LG, San Diego Gas and Electric' innovation center, Google, Tupras (the largest oil refinery in Turkey), Bio-Planet (a health food grocery chain in Belgium), one of our newest Distributors - Green Tree Products, in Asia - just completed a warehouse in Batam, Indonesia, Multi Pharma in Brussels, Migros Supermarkets in Turkey, Vitra and Elrod High School in Kentucky. And there is more good news on the horizon.

Thank you for your continued confidence and support. Ciralight Global is committed to providing the most innovative, brilliant, human-centric, cost-effective daylighting solution on the market and we believe Ciralight Global is on a path of tremendous success.

Should you have questions about your stock or about Ciralight Global, call Michael Selsman, who is handling Investor Relations for Ciralight Global. Michael can be reached by phone at (310) 553-5732 or email at [ms@publiccommunications.biz](mailto:ms@publiccommunications.biz). Of course you are always welcome to call us here at Ciralight Global as well, at 877-520-5005.
